Structural Transformation, Country and Province

Arief Anshory Yusuf

Where Indonesia’s regions stand on the path every growing economy has followed.

Every economy sheds agriculture as it grows — at its own pace

Indonesia’s provinces span almost the whole international range. Aceh’s agriculture share is higher than Indonesia’s has been at any point since 1983, at twice the income per head.

Agriculture’s share of value added against income per head

GDP per capita, constant 2015 US dollars, log scale · 202 countries, latest year · 38 Indonesian provinces, 2024 · Indonesia 1983 to 2024
